

The logo for FRASLE MOBILITY is positioned in the upper center of the image. It features a red icon on the left consisting of three parallel diagonal lines. To the right of the icon, the word "FRASLE" is written in a large, bold, white, sans-serif font. Below "FRASLE", the word "MOBILITY" is written in a smaller, white, sans-serif font.

FRASLE
MOBILITY

AT FRASLE MOBILITY, OUR MISSION IS CLEAR: KEEP LIFE IN MOTION.

Movement is our essence. Everything that moves the world and its people is part of our commitment of bringing safety and innovation to everyone.

We are a global ecosystem of intelligent and sustainable solutions for mobility. Among market leaders in the development of products and services that keep cars, trucks, buses, motorcycles, trains, and aircrafts safely in motion.

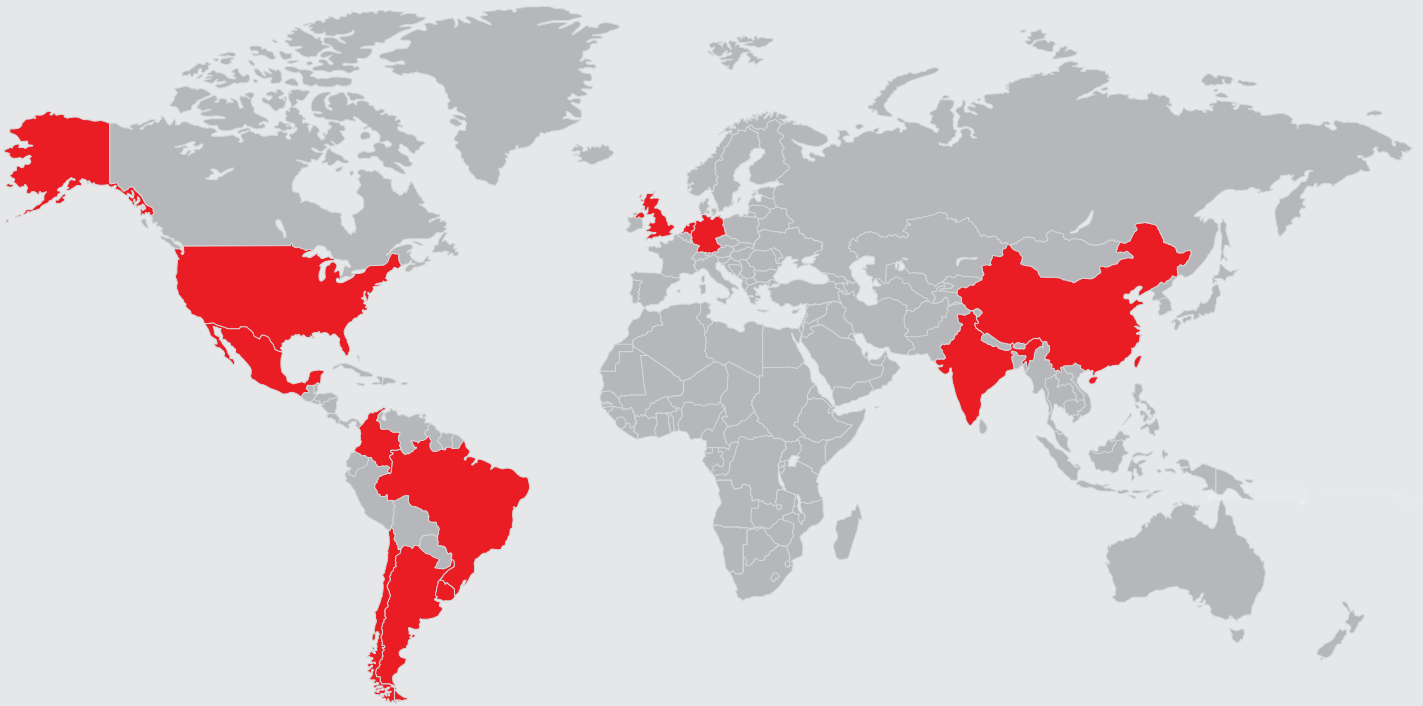

In order to control the movement, we need the best in braking and this keeps guiding us to new achievements.

Currently, we have more than 43,000 product references present in over 125 countries. Moving the economy with the constant work of more than 7,500 employees in an infrastructure of 12 industrial plants, nine distribution centres, seven commercial offices, and two research and development centres, reflecting our excellence and global performance.

We represent the union of strong brands committed to sustainability, using renewable energy sources and processes, monitoring our carbon footprint and reducing CO₂ emissions. This is how we promote the best experience for our customers and partners while respecting the planet, taking care of people, and helping to move the world towards a more inclusive future.

WE ARE PART OF RANDONCORP

Listed on the São Paulo stock exchange since 1971, we became part of Randoncorp in 1996. This allowed us to work together on the social and industrial development of the communities we are located in such as Caxias do Sul and Joinville through the Elisabetha Randon Institute.

Our people and their diversity of cultures, skills, and knowledge are the reason for our constant growth. Being able to contribute and appreciate their unique qualities and joined efforts in caring for the planet is what guides our public ESG commitments.

- ✓ Double the number of women in leadership positions by 2025
- ✓ Reduce 40% of greenhouse gas emissions by 2030
- ✓ Eliminate waste disposal in industrial landfills
- ✓ Zero accidents

GROWTH BASED ON TECHNOLOGY AND RESEARCH

Together with Randoncorp, Frasle Mobility upholds its innovation hubs, such as the Randon Technological Centre (CTR) and NIONE, a global innovator in nanoparticle technologies.

It also supports and actively participates in Hercílio Randon Institute (IHR) through research efforts and materials development, creating high-performance and competitive solutions for the automotive market.

- Latin America's most advanced open-access technology hub for the development and approval of mobility products
- 222 acre complex featuring 15km of specialised tracks with 20 different configurations for on-road, off-road, ABS and NVH testing
- Laboratories, workshops, and a multidisciplinary team

**PORTFOLIO OF BRANDS
AND PRODUCTS
AVAILABLE IN THE UK:**

A leader in high-performance friction materials for commercial vehicles.

Think Brakes, It's Fras-le.

High-quality braking components for passenger vehicles.

Juratek. Trusted braking solutions.

Market-leading chassis components for passenger vehicles.

Nakata. Count on us.

Quality aftermarket components for passenger vehicles at affordable prices.

Abtex. Value in every stop.

GLOBAL HOUSE OF BRANDS

FREMAX

Maximum in safety, innovation and performance for brakes and drums.
Fremax. The Maximum in Motion.

CONTROIL

Solutions for hydraulic brakes with high quality and technology to drive with confidence.
Choose trust, choose Control.

COMPOSS

Sustainable customised solutions in composite materials.
Compass. It's completely possible.
